Dear Parents/Guardians:

Safety on The Primary Playground

In Physical Education class, your child has now been taught all the safety expectations for using the primary playground equipment. We now ask that you kindly review them at home so everyone is aware of the expectations.

The Primary Staff would like to thank all parents for their continued support towards the Primary Playground Equipment. However, to maintain a safe environment for all children, we ask that everyone who uses the equipment follow the rules listed below:

1. **ONE WAY TRAFFIC**

UP ROUTES - use the stairs, stepping stones, curly pole and the black circles to go up on the playground.

DOWN ROUTES - use the slides, feet first and sitting on your bottom to go down on the playground.

2. Playing tag is not allowed around the playground equipment.
3. Stones must be kept on the ground.
4. **WALK** on and around the equipment.
5. Eat snacks before you go on the equipment.

Thank you for your cooperation to ensure the safety of all our children.

The Primary Staff.
